

To whom it may concern,

I am writing to ask that you vote in favor of stations like K-LOVE radio and keep FM translator service a priority over Low Power FM stations.

I work alot of Sundays and don't get to attend church very often. Listening to the broadcasting on K-LOVE is usually the only way I get to hear a message from the Bible and the encouragement I get from the various programs is too valuable to me to not say something to you.

The music is uplifting, unlike secular radio stations - which many times has music with degrading lyrics and suggestive language.

I stringly believe you would be doing the Grand Island community a disservice if you allow LPFM stations to take priority over FM translator service.

Thank you for your attention to this.

Sincerely,

Tony L. Hall
